CAREER OBJECTIVE

A determined and reliable graduate with a wide knowledge base and a high level of IT skills, looking to experience new and exciting challenges within the creative industries and to develop new skills whilst expanding on current skill set.

VIDEO PROJECTS

Avid Show-reel

A short 2 minute show-reel piece for Avid Technology, for use at IBC 2008. Editing video in short time span, to high quality in order to represent Avid.

Promotional Video

A video to promote the University of Portsmouth's School of Creative Technologies. Editing video to the client specification both from on and off site to produce a high quality video that the university could use.

'Are You Experienced?'

A mini documentary looking at work experience in the creative industries.

'Intune'

A 25 minute live TV show based on the music scene.

Portsmouth Maths Video

A video report on the success of a new maths initiative in Portsmouth.

Videographer projects

Producing and Editing video of productions/shows and weddings

- Laura and Andy's Wedding (June 09)
- Jen and Paul's Wedding (July 08)
- Oliver – Helena Romanes School (Jan 08)
- Come Back for Christmas – Plume School (Dec 07)
- Summer Music Concert – Plume School (July 07)

SKILLS

Team player

- Several university units involved working with groups of people to complete projects on time to the right specification. Example projects: Creating a documentary, designing a website and starting a business.
- Previous work experience involved working individually but also as part of a team, sometimes involving managers, admin and technicians to ensure the task was completed to the deadline.

Project Management

- Various university units required personal and group management to ensure the project was completed to the specification and deadline.
- Final year project was based upon project management, used to create a short video. As project manager I oversaw the video from scoping through to evaluation.

Organisational

- Previous work experience has required the organisation of school trips, from research and initial booking, to risk assessment and travel planning.
- Starting a business involved organising all the initial set-up and finance details.

Troubleshooting

- Worked with many computers to find and solve problems that have occurred with hard-ware and software.
- Organising and sorting issues that arise from incorrect management of resources. For example: Organising solutions to deal with the over booking of equipment and/or the technician's time.

Technical

- Highly competent user of the PC (Windows)
- Experience with a variety of camera equipment
- Understanding and basic use of Mac and Linux
- Basic understanding and use of lighting, specifically in a theatrical setting
- Knowledge and experience with sound, in both a live setting and within a recording studio.

Software

- Video Editing (Avid Media Composer, Avid Liquid, Adobe Premiere)
- Web Design (Macromedia Dreamweaver, Microsoft Expression Web, HTML)
- Image (Adobe Photoshop)
- Audio (Sony Soundforge, Steinberg Cubase)
- Office (Microsoft Office)
- Other (Adobe Encore, Flash, Director)
